WHY WE EXIST

A calmer place to keep what you cook.

Recipe Duck gathers every recipe you love — scribbled, screenshotted, imported, or dreamed up with AI — into one tidy nest. It remembers what you cooked, helps you decide what's next, and builds the shopping list so you don't have to. *Playful and reliable. Useful, most of all. And a little bit fun.*

WE ARE

A friend in the kitchen. A clever assistant that does the boring parts. A place that feels calm and a touch delightful — the gentle quack, not the loud horn.

WE ARE NOT

A lifestyle influencer. A cluttered database. A chirpy chatbot. We never get in the way of dinner, and we never take ourselves too seriously.

THE IDENTITY

The mark & wordmark

Our symbol is a single, friendly duck head built from a circle and a broad bill — geometric enough to feel like a product, soft enough to feel like a friend. It pairs with the *Recipe Duck* wordmark set in DM Serif Display.

REVERSED

Recipe Duck

ON YELLOW

Three locked forms cover almost everything: the **stacked** lockup for hero moments, the **horizontal** lockup for headers and toolbars, and the **symbol alone** for avatars, app icons, and favicons.

EXPLORATION

Four directions we tried

We explored a range before landing on the duck head. Keeping the alternatives on record helps future sub-brands and seasonal marks stay in the family.

CONCEPT A

CHOSEN

The Duck Head

Geometric, friendly, works tiny. Our pick.

CONCEPT B

The Monogram

A serif "D" in a rounded tile. Clean, but quiet.

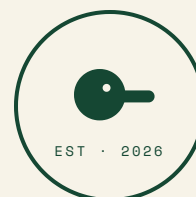

CONCEPT C

Recipe

Wordmark + dot

A "pond pebble" accent. Elegant, but not duck enough.

CONCEPT D

The Badge

Crest-style stamp. Lovely for merch & seals.

KEEP IT CONSISTENT

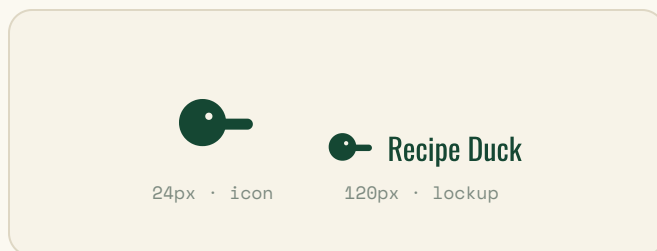

Space, size & misuse

CLEAR SPACE

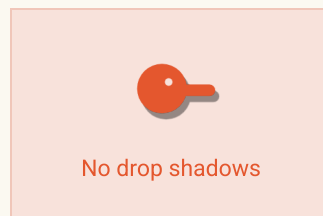

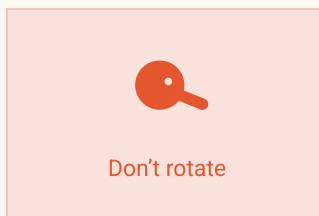

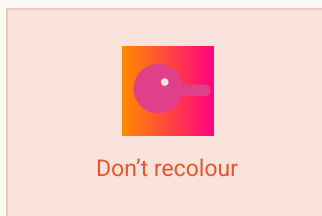

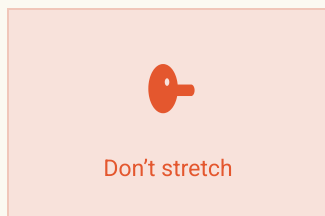

Leave clear space equal to the height of the duck's eye-to-bill on every side. Nothing — type, edges, other logos — enters this zone.

MINIMUM SIZE

Never show the symbol smaller than 24 px, or the full lockup below 120 px wide, so the bill stays readable.

NEVER DO THIS

THREE WAYS TO WEAR GREEN & YELLOW

Palette directions

All three keep the unmistakable green-and-yellow heritage. They differ in warmth and in how much a “food” accent gets to play.

Game Day

Faithful & high-energy. The original spirit, untouched.

Duck Yellow

THE 60·30·10 RULE

60% calm Shell backgrounds · 30% Mallard Green for structure and type · 10% Duck Yellow & Paprika as sparing pops. Yellow is a highlighter, never a wall.

ACCESSIBILITY

Green on Shell and white clears AA. Never set Duck Yellow as a text colour on white — use it only as a background behind Mallard Green.

THREE JOBS, THREE FACES

The typefaces

One face for the logo, one for headlines, one for everything you read. Together they feel sporty, clean and appetising — a confident nod to the green-and-yellow heritage.

Set Oswald headlines tight (line-height ≈ 1). Keep DM Serif for the logo only — never mix it into headings or body.

HOW RECIPE DUCK TALKS

Voice & tone

Like a friend who happens to be a great cook: warm, plain-spoken, quietly funny. Useful first, clever second — never both at the diner's expense.

Warm

Talk like a person, in the kitchen.

Useful

Say the helpful thing first.

Light

A wink — never a whole routine.

Brief

They're mid-cook. Be skimmable.

WE SAY

"Saved! It's in your nest."

Friendly confirmation, a little character.

NOT

"Operation completed successfully."

Robotic and cold.

WE SAY

"Couldn't read that link — paste the text instead?"

Plain, blameless, offers a way forward.

NOT

"Error 422: unprocessable entity."

Jargon that helps no one.

Words we love: nest · cook · gather · tonight · let's · tidy. **Words we skip:** leverage · seamless · utilise · synergy · solution.

RECIPE CARD

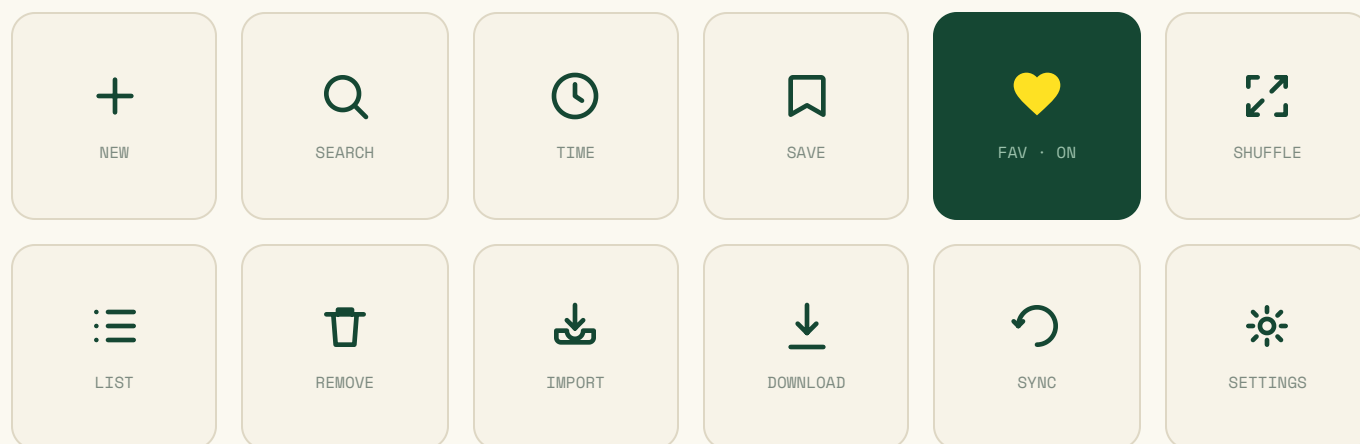

White card, 14px radius, hairline border, soft shadow. Serif recipe title, mono meta, one image with a generous corner. Calm by default; colour earns attention.

SIMPLE, ROUNDED, FRIENDLY

Iconography

Line icons on a 24 px grid, 2 px stroke, rounded caps and joins.
 Outlined by default; fill only to show an active or “on” state.

DO

Keep strokes even, corners rounded, and metaphors literal. One visual weight across the whole set.

DON'T

Mix filled and outline in the same row, add detail, or drop in icons from another library's style.
